

Dylan Schwindt

Software Engineer

Las Vegas, NV (89104) • (702) 986-3959 • dfieldmark69@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

Skills

JavaScript • React • Node • postgresSQL • Redux
• HTML • CSS • SASS
Git • Express • Jest • Cypress

Mentoring • Customer Satisfaction • Teamwork
• Active Learning • Critical Thinking • Presentation

Professional Experience

Full-Stack Developer (Student)

July 20 - Present

DevMountain, Remote

- Provided supplemental guidance to over 15 developers in my cohort via pair programming
- Maximized the following applications' efficiency, data quality, scope, operability, and flexibility.
- Planned, wrote, and debugged web applications and software with complete accuracy.

Pro-List | [Code Base](#) | [Demo Video](#)

- ❖ State driven using React Hooks that connects with local storage to stimulate a server/database to save data on reload
- ❖ Responsive Sorting that sorts tasks based on the tasks set priority when created
- ❖ Functionality that lets the user know when the task is no longer needed to be done

Streamer

- ❖ Full Stack App utilizing non-relational databases, React with Global State Management Redux, flv.js and a RTMP Server
- ❖ Developed app integration with REST and other APIs for social media logins, payment processors, and other services.
- ❖ Managed time-sensitive updates, including content changes and database upgrades.

Cashier

December 2019 - Present

Clique Hospitality, Side Piece Pizza

- Increased product sales by over 400% by testing different sales techniques and strategies to appeal to consumers
- Used POS systems to include discounts, casino vouchers, and delivery apps
- Consistently took on multiple simultaneous tasks with perfect time management skills while under pressure
- Accustomed to providing individualized guest service, including managing private venue requests

Personal Side Projects

Junior Self Taught Front-End Developer

October 2019 - February 2020

BudgetChecker, Remote

- Took stale internal project and spearheaded a beta release
- Contributed to and maintained a shared codebase to improve workflows
- Created front end templates for all other frontend portions
- Maintained private data inside of a Front End based app without the use of a server

Junior Self Taught Front-End Developer

July 2019 - September 2019

Omnifood, Remote

- Took a static website and integrated responsive design for a better User Experience
- Enhanced the User Experience with implementing many CSS animations
